

FRONTIER

SPECIALTY CHEMICALS

Capabilities, history, services, and an
overview of our large catalog

www.FrontierSpecialtyChemicals.com

Chemical Specialties

→ Porphyrins

→ Organoboron Reagents

→ Fluorinated Reagents

→ Organohalides

→ BODIPY Dyes

→ Carboxylic Acids

→ Oxaboroles

→ Functionalized PEGs

Services Offered

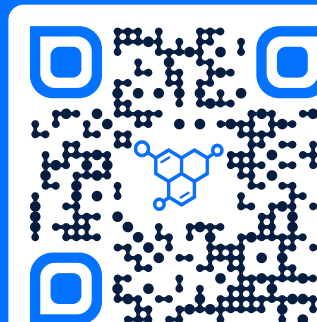

→ Custom Synthesis

→ Scale-Up of Established
Syntheses

→ Process Development

→ Contract Research

that scale with your needs
from mg to hundreds of kg

www.FrontierSpecialtyChemicals.com

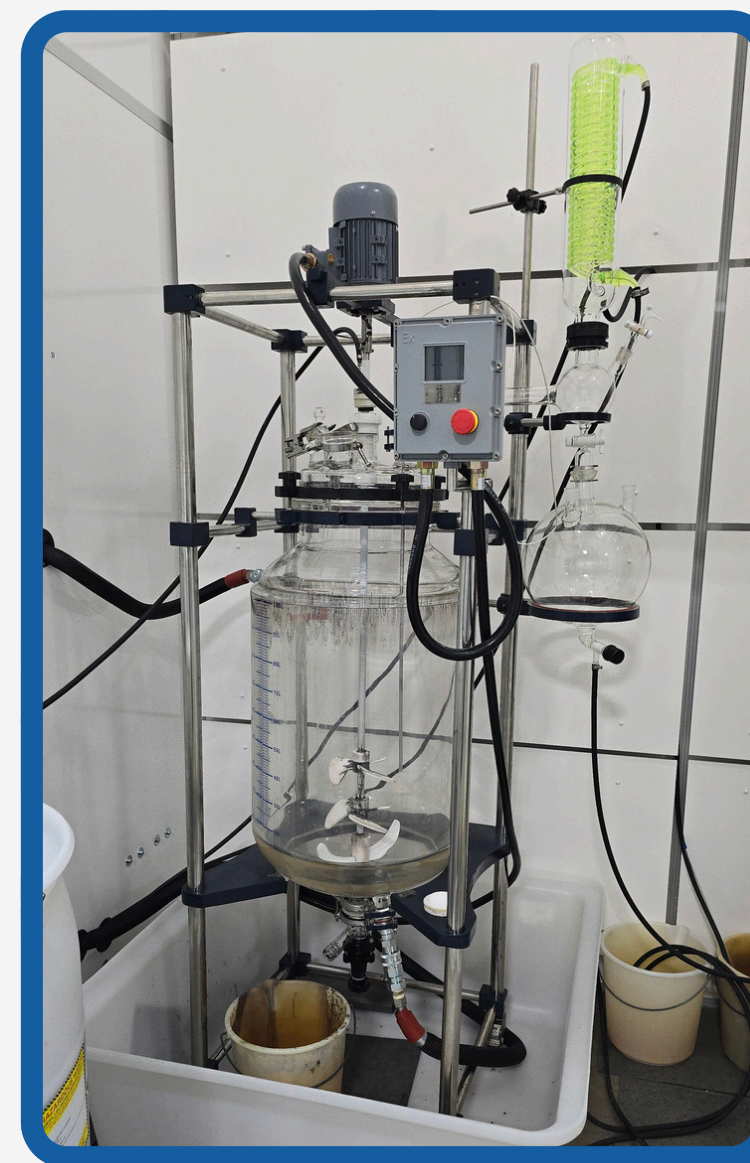

Brief Company History

2026 Lab Expansion

Frontier has expanded its existing facility with 10,000 square feet of additional production space.

This investment strengthens our capacity to support clients seeking unique, high-quality specialty chemicals while reinforcing our commitment to responsive service and long-term partnerships.

Analytical Capabilities

On-Site Capabilities

Include:

- NMR (400MHz JEOL)
- HPLCs
- LCMS
- GC
- GCMS
- UV/Vis
- KF
- Melting Point

Off-Site Capabilities

Include:

- Elemental Analysis
- IR
- Optical Rotation
- XRPD
- Trace Solvents

SCAN ME

Custom Synthesis

We scale with your needs from small, short-term to long-term (10+ year) projects! We produce compounds from mg to hundreds of kg scale.

American Made, Globally Trusted: All syntheses performed in Utah, USA

Scale-up and Optimization: mg to kg scales that grow with your needs

Confidential: Guaranteed protection of your intellectual property

Multi-Step Processes: Individualized plans that address your needs
